Site: Childrens playground

Horsted keynes

Dear Sarah, following my recent visit please find estimate for works detailed below.

- Remove existing post and rail fence about 95m length and replace with new timber fence comprising 2.4m 100x100mm posts and 100x50mm rails with black chainlink wire fence. To include 1x8ft and 2x4ft new timber gates, fittings and posts.

Price for above work £4,812.50 + vat.

- as alternative to the above replace only 16 most decayed rails and 3 posts in existing fence and make good. Remove existing chainlink fence and replace with new. Adjust existing gates and fixings to make good if possible.

Price for above work £1,100.00 + vat.

Due to the site fencing I could only do a visual inspection of the fence.

Should you have any queries please don't hesitate to contact me,

Best regards,

Chris Hughes
